Our audience is around one hundred highly knowledgeable corporate and policy experts from many of the G20 countries. We will discuss the environmental risks in major regions and what can public policy do to turn these risks into business opportunities. This forum will engage leaders from the private sector, U.S. government, and multilateral organizations to discuss a path forward on international trade that promotes environmentally sustainable outcomes.

Please let me know if you have any questions, and we look forward to hosting you tomorrow, thank you!
